101, Sri Krishna Nilayam, 3rd Block, Banashankari 3rd Stage, Banashankari, Bengaluru 560085

SUMMARY

Bachelor of Engineering candidate in AI & ML with hands on experience in sentiment analysis, NLP frameworks and AI voice assistants. Skilled in Python and problem-solving, with a track record of delivering impactful, real-time solutions.

EDUCATION

B. M. S. College of Engineering — **2021 - 2025**
- BE in Artificial Intelligence & Machine Learning

SSMRV PU College — **2019 - 2021**
- Pre-University Course in PCMCs

Bangalore International Public School — **2018 - 2019**
- Secondary School Leaving Certificate (SSLC)

PROFESSIONAL SKILLS

Problem solving	Communication
Time management	Teamwork

TECHNICAL SKILLS

Python	SQL	Web Tech
C++	Power BI	AI/ML Tools

PROFESSIONAL EXPERIENCE

Project Intern, NIT Goa — **March 2025 - May 2025**
- hands-on experience in applying machine learning techniques.
- Working on the spam detection project enhanced my understanding of text classification, natural language processing, and the practical implementation of algorithms.
- Gained practical skills in data preprocessing, feature extraction and performance evaluation.

PROJECTS

Sentiment Analysis — **2022 - 2023**
- Developed robust NLP frameworks for text classification, sentiment analysis, and named entity recognition tasks.
- Leveraged natural language processing techniques with Python, enhancing sentiment analysis capabilities for social media monitoring.

Personalized AI Voice Assistant — **2023 - 2024**
- Successfully integrated the voice assistant with existing software applications, allowing for smooth operation and enhanced functionality.
- Utilized natural language processing techniques to understand and respond to user commands effectively, improving the overall user experience

Weapon Detection Using YoloV8 — **2024 - 2025**
- Developed a weapon detection system utilizing YOLOv8, enhancing security measures through real-time weapon detection
- Trained the YOLOv8 model on a diverse dataset to improve detection accuracy and reduce false positives in various environments.
